GENERAL STRIKE OF L. & N. MACHINISTS

Between 600 and 700 Are Employed on the Road.

NO PAY INCREASE DEMANDED

Machinists Ask Recognition of the Union and a Uniform Scale of Prices In Each Shop—Other Mechanics May Follow Suit.

Louisville, Ky., May 30.—A general strike of machinists on the Louisville and Nashville railroad was ordered Wednesday. There are between 600 and 700 mechanics employed on the road, 245 of them working in the South Louisville shops.

Vice President Buckalew, who ordered the strike on receipt of a telegram from President O'Connell, of the International Association of Machinists, claims that eighty per cent of the men will go out on receipt of the order and that they will be followed if it becomes necessary, by the blacksmiths, boilermakers and other skilled mechanics in the different shops.

The machinists ask recognition of the union, and a uniform scale of wages in each shop. No increase of pay is demanded.

ARE TO TAKE FIRM HAND.

Influential Business Men Form Committee To Take City In Charge.

San Francisco, May 30.—Within the next few days a committee of 75 men, comprising the most influential business men, merchants and manufacturers of San Francisco, will be created. It will form a rallying point for the decent, conservative element of the community which wishes to see the law and order preserved and business confidence restored.

In personnel the committee is intended to be representative of those elements in the community whose interests are most vitally at stake—the merchants, business men and manufacturers, the large owners of property and the leaders in the financial world. Its size and the character of its members is intended to give it a power and influence that will enable it to take a firm stand in the present crisis and bring an overwhelming influence to bear against the forces of disorder.

Spurred by the declaration of Governor Gillette in his public statement of Friday last, the executive committee appointed in joint mass meeting several years ago by the merchants' exchange, the merchants' association, the chamber of commerce, the manufacturers' and the producers' associations and the board of trade, who is back of the movement, have been carefully canvassing the ground after due deliberation is about to announce its plans.

LITTLE CREDENCE TO STORY.

Not Thought that Czolgoz's Brother is Prowling About Canton.

Cleveland, May 30.—The government secret service officials place little credence in the story published on Wednesday to the effect that Michael Czolgoz, brother of Leon Czolgoz, the assassin of President McKinley, is now in Canton.

Peter C. Dick, chief of the local secret service bureau, said:

"I have heard nothing concerning the matter except what I have read in the newspapers. The statement that we are looking for Michael Czolgoz is not true. Even though the man has gone to Canton, I see no reason for any alarm in this. Of course, if he is ther ehe will doubtless be located and watched.

Cannon Visits Birthplace.

Greensboro, N. C., May 30.—Speaker Joseph G. Cannon, of the national house of representatives, arrived here on an early train from the city of Washington. He was met at the depot by a reception committee from the city and from Guilford college. In company with friends and relatives, he visited the place of his birth 7 miles from the city and also the Guilford battleground.

LOVING INDICTED,

But is Released Upon Giving Bond in the Sum of $7,000.

Lovingston, Va., May 30.—Former Judge W. C. Loving, manager of the Thomas F. Ryan estate here, was on Tuesday indicted for the murder of Theodore Estes, at Oak Ridge, near Lovingston on April 22, following a drive during which Loving claims Estes drugged and assaulted Miss Loving, daughter of the defendant.

The proceedings in the circuit court here Tuesday were the indictment of Loving, his arraignment, pleading of not guilty, admission into bail in the sum of $7,000 and arguments for and against change of venue. The defense sought a change of venue and the afternoon session of the court was devoted to the reading of affidavits and the argument of counsel on this point.

It was 6:30 o'clock before the hearing was concluded.

The case is attracting widespread interest, owing to the prominence of the parties.

Counsel for the defense in asking for a change of venue submitted a number of affidavits, among them one from the accused, who swore than he did not believe that he could receive a fair trial in Nelson county as half of the people there were related to either one family or the other. Judge Loving's boudsman is Judge John D. Horsley, of Lynchburg.

NOT A CANDIDATE.

Senator Daniel Not an Aspirant for Presidential Honors.

Lynchburg, Va., May 30.—Senator John W. Daniel, of Virginia, who has been suggested by Senator Raynor and others as a proper Democratic candidate for president, says in an interview:

"I am in no sense a candidate for the nomination. While the kindness with which the mention of my name has been received in some quarters is naturally very gratifying to me. I do not think the situation calls for any public expression from me at this time.

"In the wholesome condition of public feelins that has come to pass, I think the national democratic platform should enunciate broad, general democratic principles and be confined to those things upon which the democrats are generally agreed. Thus limited, it would bring together the Democratic forces of the United States, and if they could be brought together they would have an excellent chance of victory."

Twice Hit By Bolts of Jove.

Marion, O., May 30.—Six weeks ago Owen Rowe, of Kirkpatrick, was struck by lightning while walking to his home. He carries a long, livid scar on his shoulder as a memento of his narrow escape from death. On Tuesday while reading he was knocked to the floor by a bolt which struck the home of Emil Reamsnyder, a next-door neighbor. Mrs. Reamsnyder and her daughter Rose were hurled to the floor. Both were unable to speak for some time. All will recover.

Georgia Mayors Meet at Athens.

Athens, Ga., May 30.—The annual session of the Georgia League of Municipalities met here Tuesday in the Colonial theater in the phesence of a large number of Athenians. A large number of mayors from all over the state are here. After the invocation by Rev. E. L. Hill, Mayor W. F. Dorsey welcomed the guests in behalf of the city of Athens.

$40,000 Fire at Bainbridge.

Bainbridge, Ga., May 30.—Fire on Tuesday night destroyed the warehouse of the Bainbridge Grocery company, a wholesale concern, entailing a loss of about $40,000, which is partly covered by insurance. The loaded cars on the sidetrack were totally destroyed. The origin of the fire is not stated.

Looking Into Health Conditions.

Montgomery, Ala., May 30.—W. F. Snow, of the Leland Stanford university, is here looking into the health and sanitary condition of the state. He visited the slaughter pens and laboratories and took away copies of the laws. He is a member of the state board of health of California.

MANY LIVES LOST IN SWEEP OF TYPHOON

Caroline Islands Are Visited by Great Disaster.

MANY OF ISLANDS DESOLATED

The Casualties Will Extend Far Into the Hundreds—Natives Rescued Days Afterward Clinging to Tops of Cocoanut Trees.

Victoria, B. C., May 30.—Further advices regarding the disastrous twphoon in the Caroline isles recently reported by cable from Sydney, Australia, were received here in the mails from the Orient.

The typhoon passed over the Caroline island group on March 28, and hundreds of people were killed by the huge waves which swept over the smaller islands.

The natives saved were mostly those who had climbed cocoanut trees.

The typhoon extended as far west as Guam.

At the Manila observatory on March 30, the typhoon was registered as being northeast of Yap, in the western Carolines. On March 31 it was found to be north of Yap, indicating a dangerous situation in the southern part of the Carolines and the Philippines.

The accuracy of the observations from Manila observatory were confirmed on report of advices from Yap and the Carolines. The island of Ulie was entirely destroyed, and the waves which passed over the island, killed twenty people.

Heavy loss of life is reported from other islands of the group. Some were entirely covered with water, and the natives were rescued days afterwards clinging to the tops of cocoanut trees.

On Wilson island, 20 people were killed, and on Sierol or Philips isle, which lies bewteen Yap and Ulie, 50 people perished.

The majority of the islands of the group were desolated, and the loss is said to be great.

10 PER CENT WAGE RAISE.

Is Practicaly Given Every Employee of Burlington System.

Chicago, May 30.—A dispatch to the Tribune from Omaha, Neb., says that salary advances averaging 10 per cent all around, have been granted by the Burlington to employees over the entire system. The increases became effective on May 1.

Practically every employee of the road, both west and east of the Missouri river, shares in the advance, except the trainmen, whose pay is fixed by conference, and the telegraphers, who recently received an advance.

Each department is given a 10 per cent additional allowance and this is distributed at the discretion of the heads of the departments. The raises are adjusted according to industrial merit.

In the Omaha offices alone, there will be an increase of approximately $50,000 a year.

Given Up For Lost.

Fort Sydney, N. S., May 30.—Forty French fishermen have been given up for lost by the officials of St. Pierre, Miquelon. The men were members of the crews of the schooners Eli Girardin and LeFleme, which left Ft. Pierre for the Grand Banks two months ago. From that day to the present there has been nothing heard from either vessel. It is thought that the schooners were wrecked in the easterly hurricane that swept the Banks on April 9.

Will Star Under New Management.

New York, May 30.—Elsie Janis, the youngest of American stars, will play for the next five years under the management of Charles Dillingham. She has signed a contract to star in a musical comedy. Arrangements are being completed for her appearance at the beginning of the next season in a musical comedy now being written for her by an American author. Miss Janis at present is at her home in Columbus, O.

LIGHTNING SINKS SHIPS.

Crew of the Vessel Barely Escaped With Their Lives.

Pensacola, Fla., May 30.—Parties reaching the city Tuesday from the navy yard brought information of the sinking there early Monday morning during an electrical storm of the vessel William Smith, from Key West, for Pensacola.

The schooner was struck by lightning, which followed one of the masts to the deck, tore the clothing from a member of the crew as he was hurling a box of dynamite overboard, and passing down an open hatch splintered the bottom of the vessel.

The vessel sank at once, but the crew escaped in lifeboats.

The schooner was loaded with a wrecking apparatus, and on board was the box of dynamite which the man threw overboard just in time to save the lives of the entire crew.

Change in Georgia Program.

Washington, May 30.—President Roosevelt has, upon his own initiative, made one change in the program for Georgia day at the Jamestown exposition. Instead of transferring from the Mayflower to the battleship Georgia and completing the trip to Jamestown on the battleship, he will remain on board the yacht from the time he leaves the Washington navy yard until he reaches the exposition grounds. He will visit the battleship during the day, but his headquarters will be on board the Mayflower. According to the original plan, commissioner Mitchell and Governor Terrell were to leave Jamestown Sunday night on the Georgia and sail up the Potomac river to meet the president's yacht. The president prefers not to make the transfer.

Collection of Alabama Products.

Montgomery, Ala., May 30.—Commissioner of Agriculture Wilkinson has begun the collection of Alabama products, including those of the farm, the field, the mine and the forest, for a permanent exhibit at the capitol. Though this will of necessity be small it is hoped to make it comprehensive enough to give an intelligent idea of what the state has to any one of an inquiring mind. The collection so far consists of a number of samples of wood and grain and some of hay.

Georgia's Souvenir for Roosevelt.

Atlanta, May 30.—As a souvenir of Georgia Day at the Jamestown exposition President Roosevelt will be presented with a handsomely engraved plate of solid gold taken from a mine just 20 miles from the Georgia home of the president's mother, the plate bearing a reproduction of Bulloch hall, the Bulloch coat of arms, and the Georgia coat of arms.

Relief Ship for Sick.

Washington, May 30.—President General Rixey is endeavoring to have the hospital ship Relief put in commission for the care of the sick of the navy. She is urgently needed at present at Norfolk, where the naval hospital is to be rebuilt, its present condition being such as to unfit it for the care of the sick and injured of the service.

Grounded Steamer Again Afloat.

New York, May 30.—The steamer Kaiser Wilhelm der Grosse, which went aground on the west edge of the main channel, in the lower bay on Tuesday night, was floated Wednesday morning without assistance other than that given by her own engines. The steamer apparently sustained no damage.

Milner Resigns Position.

Louisville, May 30.—Mr. R. C. Milner, for many years superintendent of the Louisville division of the Southern Railway, announced his resignation Wednesday. He will be succeeded by C. G. Walker, of St. Louis. Mr. Milner will remove to Atlanta, Ga., to engage in the general contracting business.

Berlin Bakers Strike.

Berlin, May 30.—The journeymen bakers struck Tuesday night. About 2,500 bakeries are affected and more than 5,000 men are out. They demand a minimum wage of $5.75 per week, ten to twelve hours for a day's work and one day's rest each week.

ALABAMANS ATTEND CRUISER LAUNCHING

Birmingham Is a New Addition to United States Navy.

SHE HAS SPEED OF 24 KNOTS

Christening Party Was Headed by Former Governor Johnston, of Alabama—Miss Mary Campbell Was Sponsor.

Quincy, Mass., May 30.—It was an interested party of southern men and women which former Governor Joseph F. Johnston, of Alabama, and Miss Mary Campbell, of Birmingham, led to the yard of the Fore River Shipbuilding company Wednesday for the launching of the scout cruiser Birmingham, the former governor as the state's representative, and the young woman as the sponsor of the new addition to the American navy.

Included in the christening party were Major James W. Hirley, the representative of Mayor Ward, and a score of other citizens of Birmingham, together with the parents and a bevy of girl friends of Miss Campbell.

The Birmingham, which is designed to make a speed of 24 knots an hour, is a new departure in shipbuilding in the American navy.

The estimated speed of 24 knots an hour while slightly less than that of the English scout cruisers, is more than compensated for by the ability to maintain the high speed in all conditions of weather and in addition the American type of cruiser has more than twice the coal capacity, and therefore, a far greater radius of action than the English scout.

The Birmingham is 420 feet over all, 52 feet, 8 inches in breadth and has a draught of 19 feet. The total capacity is 1,250 tons, and her steaming radius at full speed is estimated at 1,875, or 6,250 miles at 10 knots an hour. It is estimated that she will develop 16,000 horsepower.

The hull is built of steel throughout with two longitudinal bulk heads and five decks, the main and berth decks being continuous from stem to stern. Her battery will consist of two five-inch and six three-inch rapid fire guns and two twenty-one inch submerged torpedo guns.

Her motive power will be derived from vertical engines with four cylinders, triple expansion type, and she will have the usual twin screws.

The Birmingham will be distinguished by her two-pole masts and her four short smoke stacks.

UPRISING IN CHINA.

Not Directed Against Foreigners, but the Government.

Swatow, China, May 30.—A proclamation issued by the Svatvan revolutionary society declares that the uprising is not directed against foreigners by ordinary Chinese subjects, but against the government, the intention of the revolutionists being to attack and burn every Yamen and exterminate the officials with the object of overthrowing the government.

The missions, with the exception of the German mission at Lien Chow, have thus far been unmolested, but the missionaries are abandoning their stations and seeking refuge at Swatow.

The local officials take a serious view of the proclamation and are urging the government at Canton to dispatch gunboats here.

Incoming and outgoing Chinese passengers on the Chaochoufu railroad are searched.

Lively Row in Court.

Rockmart, Ga., May 30.—During the trial of a case in Judge Morgan's court Monday afternoon, Colonel R. F. Mundy, representative of Polk county in the state legislature, and Ben F. Heaton engaged in an altercation following some words over the case. Mundy, it is said, threw an inkstand at Heaton. Heaton slashed at Mundy with his knife, cutting a gash 6 inches long across the back just below the shoulder blades. The wound is not fatal.

CITIZENS CONFERRED WITH RAILROAD MEN

In the Matter of a Union Railroad Station for Gainesville.

LARGELY ATTENDED MEETING

It Was a Joint Gathering of Board of Trade, Citizens and Representatives of Various Railroads—Committee Appointed to Confer in Matter.

In compliance with the call which has appeared in The Sun for several days, there was a large and interesting joint meeting of the Board of Trade and citizens, and representatives of the various railroads entering the city, at the council chamber Thursday morning, at which Mayor W. R. Thomas, president of the Board of Trade, presided.

Those present representing the railroads were F. B. Simonton of Tampa, representing the Tampa and Jacksonville; M. Riddle, general superintendent of the Atlantic Coast Line, Jacksonville, and Judge Rainey, representing the Seaboard Air Line, Tallahassee.

Chairman Thomas stated that the purpose of the meeting was to consult with the representatives of the railroads in the matter of a union depot for Gainesville, which the people realized was badly needed.

The subject being open for discussion, there were many interesting talks by members of the board, citizens and representatives. It was evident, by the remarks of the railroad officials, that the roads were willing to concede to anything reasonable, assuring the meeting that, considering the expense would not be excessive, the railroads were perfectly willing to comply with the wishes of their patrons.

A resolution was presented and adopted requesting the railroad companies to complete a union station within two years.

In reply to requests, the representatives requested the chair to appoint a committee to confer with the railroad civil engineers in the matter of securing a desirable site, the probable cost of a union station such as is required, etc. A motion prevailed to this effect, and was carried, and the chair appointed B. F. Hampton, secretary of the Board of Trade, W. B. Taylor, S. J. Thomas, E. E. Cannon and J. H. Jarvis.

The meeting adjourned, subject to the call of the chairman.

DECORATION DAY DULY OBSERVED

Lew Wallace Post and Friends Pay Tribute to the Departed.

MOST INTERESTING PROGRAM

Grand Army, Accompanied by Members of United Confederate Veterans, Daughters of Confederacy and Others Attend the Exercises.

Thursday was the National Memorial Day, or more commonly termed, Union Decoration Day, and the event was duly observed in Gainesville by Lew Wallace Post, Grand Army of the Republic, with most impressive ceremonies.

As had been previously announced, the members of Stonewall Camp, U. C. V., both chapters of the United Daughters of the Confederacy, the Spanish-American war veterans, and others, had been invited to participate, and at 9 o'clock the carriages in waiting on the north side of the court house square conveyed the G. A. R. and many members of the invited organizations to the cemetery, where the exercises, simple but sweet and impressive, were held.

The members of Lew Wallace Post were very much gratified to have with them their venerable and much-beloved commander, Col. H. F. Dutton, who accompanied the Post for the first time in several years.

The Program.

The program was a most interesting one. The ceremonies were opened by Commander Dutton, which was followed with vocal music by an excellent quartette. Prayer by the chaplain.

After the charge by the commander and a poem read by Col. I. E. Webster, the oration of the day by Dr. F. Prescott Bullock was delivered. The speaker, in his usual clever manner, deeply impressed his hearers with his eloquence and touching tributes to both the dead and the living of the Civil war. Dr. Bullock also dwelt with sincere eloquence on the soldier life of the Spanish-American war, paying the American soldier the highest compliment for valor and bravery that could be paid.

At the conclusion of this oration the graves were strewn with an abundance of flowers, taps were sounded, the benediction pronounced, and the cortege wended its way back to the city.

MELROSE NOTES.

Melrose, May 30.—Much sympathy and regret is extended by the many friends of Mr. and Mrs. H. Barnett of Hawthorn at the sudden death of their little baby, which occurred on Monday evening.

The Misses Thelma and Willie Hoffman of Dunnellon are the guests of Mrs. Neva Husband.

Mrs. M. S. M. Caldwell left Monday for Springfield, Mass., on her usual visit to her son.

Prof. R. L. Rogers of West Lake was the guest of W. N. Lee for several days during the week. Prof. Rogers was pleased to meet his friends again, having been principal of the Melrose school two years ago.

Miss Minnie Lee has returned from a very successful term as school teacher at Newberry. After taking about a month's rest she will teach a summer school at Jennings Lake.

The Lakefront lot of C. P. Huffman has been much improved by a new wire fence.

T. A. Birt received last week a very handsome birthday present from his mother, in the shape of a fine cow and calf.

And Still They Wed.

His Honor Judge Mason, during the past two days, has issued marriage licenses to the following, all colored:

Thomas Douglass and Mattie Young.

Jesse Wilson and Fannie Rowz.

Wm. Douglass and Mabel Johnson.

Bailey Armstrong and Carrie Tillman.

MAN THRASHED BOY; GOT INTO TROUBLE

Mild Sensation Sprung in Bronson a Few Days Ago.

PROFESSOR WAS ARRESTED

Upon a Charge of Assault and Battery, After Having Whipped a Son of One of the Patrons of the School. Change of Venue Granted.

There has sprung in Bronson quite a little sensation, according to the current number of The Levy Times-Democrat, being caused by the arrest of Prof. E. T. Wetter, principal of the Bronson school, for chastising a pupil, a son of W. A. Stringer, one of the patrons of the school.

This arrest occurred a few days prior to the closing of the school, the warrant having been sworn out at the instigation of Mr. Stringer.

The defendant stated that he did not believe he could get justice in the court of Levy, and upon his petition, through his attorney, the case has been transferred to Alachua county, and the hearing will come in Judge Mason's office on the third Monday in June.

Pinnell & Son represent the prosecution, while the destinies of the defendant have been entrusted to Attorney J. A. Williams.

The outcome of this case will be watched with a great deal of interest, as a similar case occurred in this county about three years ago.

The charge entered against Prof. Wetter is assault and battery.

THE MASK OF HEALTH.

Few People Are Really as Well as They Look—Cause and Remedy.

Many people in Gainesville, both men and women, who believe themselves to be in perfect health, are often in the greatest danger.

Indigestion, which is so common a trouble, is the principal cause of the greater share of the general poor health. It has misleading symptoms that seem to have no reference to the stomach, such as headache, sleeplessness, specks before the eyes, pains in the back and side, etc.

The success of physicians everywhere with the prescription that is now embodied in Mi-o-na stomach tablets has made this remedy in the last few years the acknowledged specific for the treatment of stomach diseases. The secret of this success lies in the fact that Mi-o-na is prepared expressly to strengthen the digestive organs and its use for a few days puts the whole digestive system in such shape that it can care for all of the food that is eaten without pain or distress.

Simply take a Mi-o-na stomach tablet before each meal and on retiring, and it will so strengthen the stomach that you can enjoy a hearty meal without the least fear of distress or suffering. J. W. McCollum gives an absolute unqualified guarantee that your money will be refunded unless Mi-o-na cures. He takes the whole risk and the remedy will not cost you a penny unless it cures you.

Great Damage to Crops.

Montgomery, Ala., May 30.—The reports to the office of the commissioner of agriculture indicate that the heavy rains of Saturday and Sunday and Sunday night have done incalculable hurt to the cotton crop, which has hardly had time to get a start with the little sunshine of the previous few days. There were heavy falls in all parts of the state and they came at a time when the cotton was least able to resist it.

Coming Press Association.

Atlanta, May 30.—There will be one hundred and forty-five press visitors to the annual convention of the Georgia weekly press association in Sandersville, June 6, including the editors and their wives or sisters, that many having notified President Coleman that they would attend. President Coleman has given out an elaborate program, which will be carried out at the Sandersville convention.

Liquor Licenses Raised to One Thousand Dollars, But There Were Other Big License Increases—Only Two More Days of Legislature of 1907.

The Senate was called to order at 9:30 a. m. Wednesday with President Harris in the chair and a quorum present.

The following new bills were introduced:

Senate bill No. 466, by Mr. Baker—Relating to power and duties of State auditor. Under waiver of rules the bill was read the second time in full. Motion to place bill on final passage withdrawn and consideration temporarily deferred.

Senate bill No. 467, by Mr. Massey—Relative to funds now in treasury to credit of pension fund and making same applicable to purposes of pension act of 1907. The rules were waived and the bill read the second and third time in full and passed, 26 to 0.

House memorial No. 15—A memorial to Congress of the United States, asking for appropriation for deepening and improving bar at New Symrna and deepening of North Indian and Halifax rivers, was read in full and adopted by vote of 29 to 0.

Messages from House of Representatives were considered and bill passed both houses ordered referred to committee on engrossed bills. House messages relative to Senate bills indefinitely postponed ordered spread upon journal.

Expense of Government.

The Senate then resumed the consideration of House bill No. 546, making appropriations for the expenses of the State Government and departments for the two years ending June 30, 1909.

A message was received from the Governor and consideration of bill deferred, while message was read. This referred to Senate resolution No. 65, requesting information relative to the State bank examinations being made by clerks in the comptroller's office. The Governor transmitted a letter from the comptroller, in which it was stated that seventy-seven examinations had been made in 1906, and thus far in 1907, and these had been made by Clerks W. C. Croom and W. M. McIntosh, and that no per diem had been allowed them by the department.

Pay of Legislators.

Senator West of the First cast a bombshell by offering an amendment cutting down item of legislative expenses from $85,000 to $78,940, stating that if the plea for economy was to be maintained the Legislature should start at home, and this amendment would have the effect of reducing the pay of members of the Senate and House from $6 to $5 a day. The roll call being ordered, there were numerous explanations of votes and some amusement. The amendment was lost by a close vote of 14 to 14, and a general feeling of better humor seemed to pervade the Senate chamber when the vote was announced, and the existing tension was somewhat relaxed. Senator Hudson offered an amendment not changing, but to some extent itemizing amount appropriated for hospital for insane.

House Messages.

Consideration of this bill was deferred for a few minutes while the Senate could take up House messages and refer bills to committees or order those having passed both houses enrolled.

Senator Neel moved that the rules be waived and that House joint resolution No. 246, by Mr. Paul of Holmes, proposing constitutional amendment relating to apportionment, be read the second time in full. A roll call being ordered, the Senate refused to waive the rules and the resolution was referred to the committee on constitutional amendments.

House memorial No. 16, memorializing Florida's Representatives in Congress to communicate with Senator Burton, chairman of the National Commission, and use efforts in Congress deepening of Caloosahatchie river and an island waterway, was read, and under waiver of rules, second time and passed, 21 to 1.

The House amendment to Senate bill No. 49, by Mr. Crill, being the pure food bill, were read, with House amendments, which were concurred in with one exception.

Printing Expenses.

Senator Adams moved that the Senate reconsider the vote by which the amendment of Senator Trammell in regard to the amount appropriated for printing was lost. Roll call being ordered, the motion to reconsider prevailed and the amendment increasing the appropriation for printing for last half of 1907 from $7,500 to $10,000 was read. Senator Adams stated he had a communication from the comptroller's office stating in effect that while the smaller amount might be sufficient, it would be well and perhaps necessary to have a sufficiently large amount in case it was needed. The amendment was on roll call adopted by vote of 16 to 15. A number of other amendments were offered, those defeated and those adopted being practically on the same lines as those of the first section.

After a long debate on various sections which lasted off and on during the entire day, the bill with its thirty-nine amendments, was finally passed by a vote of 19 to 5, and same was referred to House for concurrence in Senate resolutions.

Raise In Liquor License.

Under the special rule adopted, the Senate then proceeded to consideration of House bill No. 508, this being the general license tax bill. The bill was read the second time in full by sections. Senator Humphries offered amendments which were adopted increasing liquor license to $1,000, of which $500 shall go to the State and $500 to the county, and requiring an additional municipal tax by incorporated cities and towns of $500. Senator Crews secured the adoption of an amendment requiring dealers in cider, beer or other intoxicating drinks to close their places of business on Sunday.

Senator Buckman offered amendments reducing license tax on social clubs selling liquors from figures in the bill to that imposed under the existing law. Senator Humphries stated while he was opposed to the sale of whiskey in any form, he still thought the clubs weakened the saloons and he favored the amendment. Finally these amendments were adopted and the increase provided for from clubs was eliminated. Senator Willis offered an amendment prohibiting sale of domestic wines and brandies in dry counties, amendment lost. Senator Jonnson offered an amendment reducing license on undertakers in towns of over 5,000 population from $50 to $10; amendment lost. Later amendment by Senator Harris reduced the license to $25. Senator Harris offered an amendment imposing license on ferries for freight or passengers of $100 in cities of more than 10,000 population and $25 in cities of less than 10,000; amendment adopted.

At the suggestion of Senator Crill, consideration of the license bill was suspended in order to consider House amendments on the tax assessment and collecitons of revenue bill. The amendments were all concurred in and the bill ordered engrossed.

The Senate adjourned until 9 o'clock Thursday morning.

MOTHERHOOD

MRS. JAMES CHESTER

The first requisite of a good mother is good health, and the experience of maternity should not be approached without careful physical preparation, as a woman who is in good physical condition transmits to her children the blessings of a good constitution.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, more successfully than by any other medicine because it gives tone and strength to the entire feminine organism, curing displacements, ulceration and inflammation, and the result is less suffering and more children healthy at birth. For more than thirty years

Lydia E. Pinkham's Vegetable Compound

has been the standby of American mothers in preparing for childbirth.

Note what Mrs. James Chester, of 427 W. 35th St., New York says in this letter:—Dear Mrs. Pinkham:—"I wish every expectant mother knew about Lydia E. Pinkham's Vegetable Compound. A neighbor who had learned of its great value at this trying period of a woman's life urged me to try it and I did so, and I cannot say enough in regard to the good it did me. I recovered quickly and am in the best of health now."

Lydia E. Pinkham's Vegetable Compound is certainly a successful remedy for the peculiar weaknesses and ailments of women.

It has cured almost every form of Female Complaints, Dragging Sensations, Weak Back, Falling and Displacements, Inflammation, Ulcerations and Organic Diseases of Women and is invaluable in preparing for Childbirth and during the Change of Life.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

CUKES ARE MOVING BY THE CAR LOADS

From Six to Eight Car Loads a Day Going From This Section.

THE CANTALOUPE MOVEMENT

J. D. Stringfellow Enjoys Distinction of Making Shipment Several Days in Advance of Others, But First Solid Car Will Leave Here Tuesday.

The movement of cucumbers from the Gainesville district is heavy at this season, from six to eight carloads being moved daily, it is stated.

With this movement, with the fruit firm and first-class in every respect, there is no reason why the growers have not met a "cinch" this year, and they should reap a rich financial reward.

While the cucumber crop is good, the prospects for other products is equally as encouraging. It is said by experienced growers, and those in a position to know, that both the watermelon and cantaloupe crops are good, and bid fair to make a handsome yield and a handsome profit to the growers.

Cantaloupes have been on the market for the past week. While the fruit in the local market seems well matured, it has a tendency of greenness, and those who have tried it state that, while it is in condition to ship, it is too green and insipid for the local market.

J. D. Stringfellow, one of the most extensive growers of cantaloupes in the State, enjoys the distinction of shipping the first fruit of the season this year, having made the first consignment on Friday of the past week. This fruit was finely shaped, well matured, and will no doubt bring good prices in the Northern markets. Mr. Stringfellow has made frequent shipments by express.

The First Solid Car.

The first solid car of cantaloupes will leave this station on Tuesday of the coming week, the car being loaded by the Gainesville Melon Growers' Association. This car will comprise several hundred crates of the finest fruit that can be grown in the United States, absolutely perfect and of uniform size and ripeness, and will reach the Northern markets in first-class condition, ready to command the best of prices.

The Season's Yield.

From an authentic source it is learned that the yield in this section this season will be about the same as last year, being from 125 to 150 cars. There is an average of between 600 and 700, and, despite the long drought, which has proved a hinderance, the rains came at last to invigorate the plants and produce the yield.

The growers of truck and melons this year feel greatly encouraged, as the prices bid fair to hold up during the entire season, owing to adverse conditions in other sections of the country.

Mysteriously Disappears.

El Paso, Tex., May 30.—It was given out Tuesday night that A. W. Susen, a jeweler and a prominent citizen of this city, had mysteriously disappeared. He left here for New York May 3. He left Chicago on the 6th of May, and has not since been heard from. Telegrams have been received from the New York jewelers with whom he deals saying he had not been there. He expected to return here on the 15th but from the time he left Chicago, not a trace of him has been found. He owns a large business and is in good financial condition.

Probable Death of Alleged Traitors.

San Francisco, May 30—The steamer City of Sydney arriving Tuesday night from Central America, brings a story of the probable death by execution, of Juan Fuentes and M. Bonilla, alleged traitors of Salvador, who were taken into custody aboard the City of Sydney by Senor Figuora, son of General Figuora, president of Salvador. Passengers arriving on the steamer believe that the two prisoners were shot soon after they were taken ashore

Mobile Quarantines Against Havana.

Mobile, Ala., May 30.—Quarantine against Havana, Cuba, was established Tuesday night by the United States Marine hospital service. BABY'S FACE IN TERRIBLE STATE

Awful Humor Was Eating Away Face and Ears—Body Mass of Sores—Three Doctors Tried to Help Little Sufferer But She Grew Worse—After Spending Many Dollars On Doctors and Medicine

CUTICURA CURES IN TWO WEEKS AT COST OF 75c.

"I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away. Her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents, which is all it cost us to cure our baby, after spending many dollars on doctors and medicines without any benefit whatever. Mrs. George J. Steese, 701 Coburn St., Akron, Ohio, Aug. 30, 1905."

ITCHING TORTURES

Speedily Cured by Cuticura

ROLLINS COLLEGE HONORS DR. HAY

Conferred Upon Him the Degree of Doctor of Divinity.

THE PREACHER WAS ELOQUENT

In His Delivery of the Commencement Address of the College, Which Was a Largely Attended Feature of the Exercises at Rollins College.

Special to The Sun:

Winter Park, May 30.—Rollins College today conferred the degree of Doctor of Divinity upon Rev. Thos. P. Hay of Gainesville, who delivered the commencement address.

Dr. Hay was greeted by a large and representative audience from every section of the State, and his address was one of the most masterly efforts of his life, full of practical eloquence.

Rollins has enjoyed one of the most successful periods in the history of its existence.

A VALUABLE PRESCRIPTION.

The average person does not realize how much the bodily health depends upon the proper action of the kidneys and bladder, nor how widespread disorders of those organs are. It is quite safe to say that they give physicians as many sleepless nights on account of their patients as do any of the others, and perhaps it would not be too much to say that, directly and indirectly, they are chargeable with as much sickness as all the other organs of the human body combined. As a result of a vast amount of careful study, many physicians are now using with great success in the treatment of disorders traceable to the kidneys and bladder a prescription composed of ¼ oz. Fluid Extract of Buchu, ¼ oz. Fluid Extract of Uva Ursi, 1 oz. Amet Cordial, ¼ oz. Fluid Extract of Liverwort and 15 ozs. water. This is administered in doses of a tablespoonful three times a day and while the treatment is continued, which, in order that all impurities may be eliminated from the system, should be for a month, the patient is advised to drink large quantities of water. The materials called for by the prescription are carried in stock by every first-class pharmacy.

GOULDD WANTS INVESTIGATION

Of Charges that Mrs. Gould's Mail Was Tampered With.

New York, May 30—Howard Gould, through his counsel, Delancey Nicoll, has joined his wife in the request to United States District Attorney Stinson that a searching investigation be made of the charges that Mrs. Gould's mail was tampered with.

While Howard Gould's answer to his wife's suit for separation has not yet been filed, it is stated that it will contain a general denial of all her allegations. An intimate friend of Mr. Gould said there would be no mention in it of a $4,000,000 proposition for a settlement.

This friend is also quoted as authority for the statement that while Mr. Gould is heartily sick and tired of the whole business, he has no intention of agreeing to a settlement, and purposes to fight the matter to the end.

Miss Booth Expresses Sorrow.

Canton, O., May 29.—"My tenderest sympathy in the transition of your beloved sister. Your consolation will be the comforting of her long sorrow in everlasting reunion. (Signed) Commander Evangeline Booth." This expression of sorrow from Miss Booth, head of the Salvation Army hosts, who visited the president's widow in her Canton home several times, was delivered to Mrs. M. C. Barber on Tuesday by Adjutant Runcie. Miss Booth instructed Adjutant Runcie to send a floral tribute to the McKinley home as a remembrance of herself and the army.

New Bacillus Causes Epidemic.

London, May 29.—A new baccillus according to Professor Adelphine, of Victoria university, Manchester, is responsible for an epidemic which has appeared at Prestwich, a suburb of Manchester. Those attacked have a swelling of the throat, leading to loss of voice, inability to swallow, fever and weakness. It was at first thought that the disease was diphtheretic, but the professor after investigation says that the baccillus of diphtheria is absent and that the disease seems to be caused by a minute globular baccillus which is new and distinct.

Leaped to Death From Train.

Wheeling, W. Va., May 30.—Wheeling travelers returning from the city of Pittsburg on the Panhandle railroad told of a horrible suicide near Burgettstown. Anna Harrison, a young negress, was sitting with another woman of her color, when she suddenly ran to the rear door and leaped from the platform to her death in the darkness. The train was running 50 miles an hour. The woman's friend failed to account for the action.

Man and the Horse.

Men are apt to say severe things of the absurdities to which many women will submit at the behest of fashion, but, really, they are every bit as bad. A good horse has a naturally arched neck, an inferior one has not. But the owner of the latter must pretend that his sorry steed is blessed with blood, and to effect the deceit he slaps on a monstrous bearing rein and defies public opinion. A London carman, who is in many things a bit of a brute, will ease his horse when going up hill by removing the reins which keep its head up, but whoever saw the same kindness extended to a horse drawing a brougham? The same slavish following of fashion marks the attention to the horse's tail. The thoroughbred has his three-quarter length bush, so have the matched pair for the brougham, but what man would drive a cob which had a tail bigger than a half expanded fan?—St. James' Gazette.

Wood Burners In Paris.

Despite all modern improvements, Paris still heats its offices and its houses to a large extent with wood. Its bakers and confectioners use hardly anything else for fuel. It burns up whole forests of timber every year, and extensive forests in several regions of France are reserved for supplying it with fuel. Coal is scarce in France and dear and not of very good quality. Besides, the Parisians are conservative in home matters. The cheery appearance of the glowing log on the hearth appeals to them, and most likely generations will pass before they give up burning wood altogether.—Philadelphia North American.

Prepared For Temptation.

Little Tommy had been forbidden to swim in the river, owing to the danger. One day he came home with unmistakable signs of having been in the water. His mother scolded him severely. "But I was tempted so badly, mother," said Tommy. "That's all very well, but how'd you come to have your bathing suit with you?" Tommy paused and then said, "Well, mother, I took my bathing suit along thinking I might be tempted."—Dundee Advertiser.

India Dialects.

India has hundreds of dialects, which may all be classed under three great heads—the Sanscrit, Pracrit and Magadhi. The Sanscrit is the fundamental language and that of the Vedas, the Pracrit the vernacular language in many dialects and the Magadhi or Misra is that of Ceylon and the islands.

An Advocate of Credit.

"The way to get on," said the business man, "is to conduct your operations on a cash basis."

"Not in politics," answered Senator Sorghum. "Promises are just as effectual as cash and not nearly so dangerous."—Washington Star.

Was It Fresh?

An Indiana woman, as she examined the fowl brought from the market, said to her little son, "Did the grocer tell you this turkey was quite fresh?"

"No'm," the boy answered; "he just said to hurry home with it as fast as I could."

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit Mich.

HOW BONNER WON SUCCESS

The career of Robert Bonner, the veteran publisher, furnishes a signal illustration of the value of persistent and sagacious advertising. When he began the publication of the paper whose phenomenal success brought him fame and fortune, he did not wait for the people to find out, slowly and gradually, the interesting features of his journal.

He forced his enterprise upon public attention by a systematic lavishness of expenditure for advertising which at that time was without precedent or parallel. Whole pages of daily newspapers were secured at high prices to blazon forth the merits of his undertaking.

From one end of the country to the other the names of Bonner and his Ledger were made familiar to the people by constant repetition.

Conservative publishers, jogging along in the ruts of old routine, prophesied bankruptcy and ruin for this unconventional innovator, but Bonner kept on spending a large share of his receipts in buying publicity, and those receipts increased with startling rapidity.

Every dollar disbursed in this way brought in more dollars until croakers were confounded and pessimists in this particular branch of business silenced by his tremendous success.

The lesson is one that is as well worth heeding today as it was forty years ago.—Philadelphia Bulletin.

Large space in this paper is one of the best investments a merchant can make.

COMPETITION SUPPRESSED.

The report of the special attorneys to the Interstate Commerce Commission recommends that the Attorney-General of the United States take action to annul the contract between the Union Pacific and Rock Island railroads for the control of the Chicago and Alton railroad, which was virtually wrecked by the Harriman syndicate. The most startling announcement in this report is "that railroad competition has been suppressed in an area equal to one-third of the United States;" and "that the profits of the great railroads of the Far West are being used to buy stocks and control systems in the East, instead of building more roads for the development of the West." Yet after this exposure of the deals of Harriman and other railroad magnates they are indignant that the Legislatures of the States included in the "area equal to one-third of the United States" should legislate to compel railroad corporations to charge reasonable rates instead of extracting vast sums from the public to buy the stocks of Eastern railroads. The fact that the Attorney-General of the United States needs prodding to protect the public interests shows that the chief reliance of the plundered people must be through their own direct representatives in their State Legislatures, rather than the procrastinating action of Federal officials.

Those good Democratic doctrines of State Rights and Home Rule are much more effective than all the boasted strenuousness of the present administration. To guard those State rights from the encroachment of Federal power by preserving all reserved rights not granted by the constitution to the National Government, is the only way for the people to secure redress of wrongs and preserve their liberty. Not a railroad is charging lower rates by reason of the legislation of Congress or prosecutions of the Roosevelt administration, but the Legislatures of many States have enacted laws which compel the railroads to charge reduced rates. Talk of even the strenuous type is cheap, but it takes the drastic laws to control railroad corporations.

This is no time for flinching—no time for whining. Our fathers never dreamed of the sky-line that enlarges the vision of the youth of this day. The world has a niche of honor for every young man our schools turn out. The day of opportunity presses hard upon the country's young blood. In them lies all our future greatness or our future weakness. The world's biography establishes the perpetual supremacy of the young life. Goethe declared that one must be young to do great things. Men in the vigorous prime of life have always ruled the world—and always will.

The greatest statesman this continent ever produced said: "If I work in marble, in time it will crumble; if I work with brass, in time it will corrode; but if I work with mind, I work with that which will grow brighter through all eternity." This was but an anticipation of the great English philosopher's declaration: "On earth there is nothing great but man—in man there is nothing great but mind."

A PRESIDENT'S VACATION.

The President returned to Washington last week from a short outing at Mrs. Roosevelt's lodge at Pine Knot, Va. He was away from the city about a week, shot a little and rode a great deal. He is looking much better from the outing and will put in the time working till the start is made for the long outing of the whole family at Oyster Bay, where they will spend the summer. Secretary Loeb has already shipped most of the office furniture for the temporary, executive office that the President occupies over one of the stores in Oyster Bay, and the home of the family at Sagamore Hill will be kept as free as possible from visitors in the rather vain hope of giving the President a real rest. His way of resting is rather a joke and amounts to what would be a good day's work for most men. There is about as much business carried on in the summer at Oyster Bay as there is at the White House in the winter, but the President has told some of his friends laughingly that he intends to be good this summer and will merely get off some reams of literary work as recreation.

It is understood that this will include some more reviews of Irish folk lore. This was a comparatively recent line of research by Mr. Roosevelt. He is said to have been introduced to it last winter by Dr. Maurice Francis Egan, the professor of the Catholic university, who has been offered his choice between the mission to Denmark and that to Portugal. Dr. Egan is himself an Irishman as might be suspected from his name and is authority on Gaelic literature. He got the President interested in the subject, which he promptly devoured, and when Douglas Hyde, the president of the Gaelic League, was here in the winter he was surprised to find that the President apparently had no recreation except studying the Irish classics. Then when the row came on with Tillman, Chandler and Bailey over the rate bill, the President decided that he would divert himself a little and forget what the papers were saying about him. He started work on his magazine article, "The Irish Sagas," promptly forgot all about politics outside of office hours, and by the time the partisan papers had gotten through dissecting the rate bill row, the magazine article was finished and the President had missed the bulk of the newspaper criticism.

Speaker Cannon was in Washington last week and it is said that he had a long conference with the President, just before the departure of the latter for Virginia, over the possibility of tariff legislation at the next session of Congress. The prospect is not at all bright. Speaker Cannon was averse to touching the tariff on the eve of a national election, and in this he is understood to have the backing of the leaders in both houses of Congress. This probably settles it, for in matters of tariff legislation, the speaker is almost all powerful.

Poets may be born but men are made. Humanity, like iron in the rough, always gives little promise. But a bar valued at $5 is worth $12 when made into horseshoes; into needles, $350; into penknives, $3,000; into balance wheels for watches, $250,000. As by these processes iron is increased in value, so through long and persistent mental discipline do men become great and useful.

Mayor Schmitz of San Francisco ought to be sorry now he let Abe Reuf beat him to the confessional.

Machinists Strike in L. & N. Shops.

Decatur, Ala., May 30.—All the machinists in the Louisville and Nashville railroad shops at New Decatur struck Tuesday morning because of the refusal of the railroad company to recognize the union. Only fifteen men were involved, the other machinists having either quit or were discharged some days ago. It is feared that other departments of the shops may also strike. Many strike-breakers have been brought in and are sleeping and eating in the shops and no one is allowed to enter without a pass. Like trouble is said to be threatened at other points on the Louisville and Nashville system.

New Balloon for Signal Corps.

Washington, May 30.—The new balloon for the signal corps of the army, ordered specially manufactured in New York some months ago, arrived by freight from that city on Tuesday, and will be given its trial test before acceptance next week, if weather conditions permit. Captain Charles DeF. Chandler, who recently made an ascension in an army balloon at St. Louis, and who is the aeronautic expert, will make the ascension test.

Atlanta Chorus Girl Weds Millionaire.

Cincinnati, May 30.—According to reports from Chicago, Frank G. Tullige, 25 years of age, a Cincinnati millionaire, was married there to Miss Kittie Wheaton, of Atlanta, Ga., a member of the chorus of Joe Weber's "Dream City" company, whom he met for the first time when the company was here two weeks ago.

Against the Dispensary.

Dawson, Ga., May 30.—The contested dispensary election case was tried on Monday, counsel consuming several hours arguing the demurer to contestants' petition. The court sustained the demurrer and dismissed the case. Dispensary advocates are preparing to carry the case to the supreme court at once.

Sour Stomach

"I used Cascarets and feel like a new man. I have been a sufferer from dyspepsia and sour stomach for the last two years. I have been taking medicine and other drugs, but could find no relief only for a short time. I will recommend Cascarets to my friends as the only thing for indigestion and sour stomach and to keep the bowels in good condition. They are very nice to eat."

HISTORIC DRAMATICS.

The Passion For Acting That Asserts Itself In Man.

Some psychologist has asserted that the instinct in many men, great or small, that leads them to pose in order to give dramatic effect to their words or actions has at times been so strong as to be unconquerable, even by death.

History records an amusing instance of this in the case of Sir Francis Burdett, who was condemned to the Tower for high treason. Sir Francis resisted the order. His house was attacked by detachments of cavalry and infantry. An infuriated mob raged outside. When the door was broken down, Burdett was found calmly seated in his library, an infant son upon his knee, whom he was teaching to read Magna Charta.

William Pitt, perhaps the greatest of British orators, was, according to Grattan, "an incomparable actor." Pitt would seize upon every trifling occurrence with the rapidity of lightning which could add force to his eloquence. It is related that on one occasion when attacking a Radical motion late at night the lights of the house went out. Pitt paused, and then in the darkness his voice rang out:

"Go on! If the constitution must be wounded, let it receive its mortal stab now in this dark and midnight hour!"

Action on the motion was postponed and finally lost. One of Pitt's opponents afterward said:

"He made us feel like conspirators doing a bloody deed simply by the lack of candles and his marvelous voice."

Pitt was fully aware of the effect of this. He once solemnly began a speech upon colonial reforms by the words, "Sugar, Mr. Speaker"— when he was interrupted by a smothered laugh from some of the younger members.

He paused, glared from bench to bench and then in a white heat of fury cried out "Sugar! Sugar! Sugar!" three times.

So powerful were the tones of the orator that a frightful silence followed. He looked at the awestruck members and said contemptuously, "Who laughs at me and sugar now?" and went on with his speech.

On another occasion, while hurling contempt at Lord Effingham, he suddenly appealed to a figure in the tapestry on the wall as "an immortal ancestor of this degenerate lord, indignant at the disgrace of his race and country." So fine was the action, we are told, that the house thrilled with excitement, only remembering afterward that the "great shade" whose wrath he deprecated was worked by a needle upon the canvas.

The passion for acting could go no further than in a duke of the great French house of Rohan, who, being told that he had only half an hour to live, caused himself to be taken up, dressed in court costume, with all his orders and jewels, and seated in the banqueting room, where he received his friends with grace and dignity. Finding himself growing blind, he rose, exclaiming, "Ah, the King is here!" saluted and fell dead.

Napoleon, according to his biographers, possessed dramatic talent of no low grade. Indeed, it has even been asserted that he took lessons of the celebrated player Talma. At any rate, the Corsican on no occasion lost sight of the dramatic possibilities of a word or an action. How the devoted legions must have thrilled when under the shadow of the pyramids he delivered to them his "Soldiers, from these pyramids forty centuries look down upon you!"

Famous Loving Cups.

Some of the old loving cups were called grace cups. Of the specimens now in possession of the English guilds and corporations the most famous is the Henry VIII. grace cup, which belongs to the Barbers' company of London. With its four globular bells hanging around the outer rim, says the Jewelers' Circular, this cup might well excite the envy of even the most honest collector of silverware. The name of the cup is derived from the fact that King Hal was the donor, the grace cup being intended to commemorate the union of the barbers with the guild of surgeons. The cover carries the Tudor rose, portcullis and fleur-de-lis, the finial of the lid being mounted with the imperial crown, the English and French arms being beneath, supported by the lion and greyhound.

The Skinners' company has a peacock cup, though it is in the form of a peahen. This large silver bird, with three chicks at her feet, stands on the silver badge, which was formerly worn by the company's barge master, and around it are the engraved words, "The gift of Mary, ye daughter of Richard Robinson and wife to Thomas Smith and James Peacock, skinners, 1642." The lady's two husbands were both masters of the company.

An Adage Vindicated.

"Where there's so much smoke there must be some fire."

The boss was speaking. He had just detected the office boy consuming a cigarette on the premises.

The adage was verified immediately. The boy got the fire.—Philadelphia Ledger.

THE SPEAKER'S DIGNITY.

Ancient Ceremonies That Survive In the House of Commons.

"Hats off, strangers, for the speaker," the constables standing in the lobby entrance of the English house of commons cry as they come to attention.

"Hats off! Way for the speaker!" is the command given by the police inspector in the so called lobby, which is really the antechamber of the house.

At once, as when the muezzin calls the faithful to prayer, there is silence and respect, and heads are bared. The speaker is about to leave his palace adjoining the house to take his seat. "Mr. Speaker," according to A. Maurice Low in Appleton's Magazine, is a very great dignitary. By law he is "the first commoner" and is given official precedence over every other commoner in the kingdom. During his term of office he receives a salary of $25,000 a year, the only member of parliament not a member of the government who is in receipt of a salary. He is provided with an official residence which is maintained at public expense. To keep him in the straight and narrow way spiritually he his has private chaplain. To enable him to walk in the devious ways of the law he has his private counsel. To minister to his comfort and convenience and dignity he has a private secretary, a train bearer and a messenger. And when he retires he is raised to the peerage with a pension of $20,000 a year for life.

Mr. Speaker has now left his residence and in stately and picturesque procession is entering the corridor that leads to the house. He is preceded by an usher. Then comes the sergeant at arms in a black coat open at the breast to show the daintiest of white cambric ruffles, knee breeches, black buckles, with a rapier on his hip. The sergeant at arms, who is appointed by the king personally, although he is an officer of the house of commons, is paid a salary of $6,000 a year and has an official residence. He carries the great glittering mace on his shoulder and is followed by two doorkeepers, who wear knee breeches, silk stockings and coats and waistcoats of the conventional evening cut, their wide expanse of shirt front partly covered by a gold chain suspended around the neck and meeting in a large gold badge. Then comes the speaker in huge wig and silk gown, which is held up by his train bearer, followed by the gowned figure of the chaplain, with two doorkeepers to close the procession. The staff of doorkeepers range themselves round the walls of the antechamber—a room with wonderful oak carving and stained glass windows—and make respectful and deep obeisance as the speaker passes, while the members stand with bared heads and in silence until the procession has entered the house. Then the members crowd in, the doors are locked, and again the voice of the muezzin is heard crying to the faithful, "Speaker at prayers."

Where a Rainbow Touches the Earth.

In every country in the world rainbow folklore declares that some object of value may be found where the ends of the beautiful arch touch the earth. In Suabia the ends are said to rest on bowls of gold; in Hungary, that cups of silver will be found at the spot where they come in contact with the earth. In Switzerland it is said that a shoe cast over the rainbow will come to the ground on the other side filled to overflowing with gold. In Bosnia it is said that if iron or other base metal happen to be at the spot where the bow touches the ground it will be instantly transformed to pure gold. In many parts of Germany, Poland, Russia, Belgium and Holland it is said to be a golden key that may be found at "the end of the bow." In Portugal and Spain they speak of the "silver hen" having her nest where the bow rests, and in Norway it comes to the ground at a spot where a golden bowl and a silver spoon are hidden. In many of the chief European countries it is said that water touched by the rainbow will cure fits and insanity.

Court Fools Who Owned Whole Towns.

Hitard, who was attached to Edmund Ironsides, is the first court jester of whom we have record. He owned the town of Walworth, a gift from the king. He held it through four succeeding reigns, and before leaving England for Rome, where he spent his last days, he presented it to the church, placing the deed upon the altar of the Cathedral of Canterbury. Gallet, Galet or Gollet, a native of Bayeux, was one of William the Conqueror's jesters. He was attached to William when only Duke of Normandy and saved his master's life by disclosing a plot for his assassination. Berdic was another. He is enrolled in Domesday Book as joculator regis and lord of three towns, all rent free, and five carucates in Gloucestershire. Rahere was jester to Henry I. and William Piculph or Picol jester to King John. Master Henry, who, it is thought, may be identical with Henry of Avranches, the poet laureate or versificator, was jester to Henry III.

What a different world this would be if we were all as smart as we think we are.—Garland (Tex.) News.

FAVORITE SON BOOMS.

Frowned Down By Roosevelt, But Encouraged by Bryan.

New York, May 30.—A Washington dispatch to the Times is as follows:

While the plan of the Democratic reactionaries is to beat Bryan with favorite son booms, just as the plan of the Republican reactionaries is to beat Roosevelt and Taft, with the same weapons, there is a striking difference between the attitudes of Mr. Roosevelt and Mr. Bryan on the subject.

While the president is going after the favorite sons with a club, Bryan is applauding the movement in the Democratic camp. If the favorite son is a reactionary himself, Bryan's friends will go after him and build a fire under him. But as long as the favorite son is not a reactionary, Bryan is willing to lend a hand in bringing him out.

This may seem too saintly an attitude for a politician to assume, but it may not be so saintly as it seems. Well informed Bryan men here say that Bryan does not want the Democratic nomination if Roosevelt or a Roosevelt man is named. They declare that Bryan's reason is that Mr. Roosevelt is doing more for radical legislation than any Democratic president handicapped by a Republican senate could do, and that Bryan does not feel that he could make a campaign against a man like Roosevelt, who stands for the same things he does.

More cynical persons are inclined to attribute Bryan's attitude to a well-founded conviction that he could not be elected against Roosevelt or a Roosevelt man.

The reactionaries have been doing their best to get booms started for Governor Smith and Senator Culberson, and have been surprised to find Bryan interposing no objections. He has also done all he could to boost Governor Folk, of Missouri, though Folk is reported to have discouraged any attempt to make a favorite son of him. His attitude toward Senator Daniel, of Virginia, is not likely to be so friendly in view of Thomas F. Ryan's interest in Daniel's candidacy and in view of Daniel's own well known conservatism, to say nothing of the Southern Railway influences in Virginia.

Six Millions Are Involved.

Raleigh, N. C., May 30.—The Morton Trust company, of New York, trustee for an issue of Seaboard Air Line railway bonds exceeding six and a half million dollars, has instituted suit in the United States circuit court here to test the validity of the act of the legislature reducing freight and passenger rates. The bill is against the Seaboard Air Line Railway company as well as the North Carolina corporation commission, the directors of the former having declared their intention of putting the new rate in effect. A restraining order is asked.

Double Tragedy Still a Mystery.

Indianapolis, Ind., May 30.—Since the death of Charles Lewis at the city hospital the police have given up all hope of learning why the young man murdered Anna Eaton in a resort in this city one week ago. Lewis had been in a comatose condition since he shot the girl and then turned the weapon upon himself. The palice advance the theory that Lewis was formerely closely acquainted with the girl and upon discovering the life she was living, killed her.

Kaiser Sanctions Great Scheme.

Berlin, May 30.—According to Der Lokal Anzeiger, the kaiser has just sanctioned a gigantic street improvement scheme here involving an outlay of $27,000,000. It is proposed to widen the narrowest part of Friederichstrasse and to replace the present insignificant houses and shops with a magnificent array of palaces, galleries and hotels, making the street one of the grandest thoroughfares in the world.

Prohibitionists Form League.

Valdosta, Ga., May 29.—The anti-prohibitionists of this county have formed a Business Men's League and have opened headquarters in this city, from where the campaign against prohibition will be waged. The prohibitionists have an old organization, and have been actively at work for several months, but the other side is rapidly getting its forces together and will make an aggressive campaign.

Horrible Cruelty of Chinese.

Canton, China, May 30.—The revolutionists in the neighborhood of Swatow, recently captured the entire family of a Chinese brigadier general and compelled them all to drown themselves in a well. Thirteen hundred troops have been dispatched from Canton to Swatow and another detachment has gone there from Shiung.

SHORT TALKS BY L. T. COOPER.

ALL WORN OUT.

This is the time of year for the "all worn out" feeling. You hear it everywhere. "I'm all worn out." Did you ever stop to think what it means? Well, it means just this; 'my liver is dull and not working properly, my stomach is taking too much food which it is'nt digesting properly, I'm all clogged up from being indoors with so little fresh air all winter long, and my body is full of impurities. In consequence I'm dull, half feverish and tired all the time.' That is what 'all worn out' really means. Take a tablespoonful of Cooper's New Discovery three times a day for two weeks and the 'all worn out' feeling will certainly leave.

MR. JOHN BURGER.

Mr. Burger was 'all worn out' once.

"For some weeks I suffered from an affection of the stomach that seemed to wear me out completely. My system was run down, my bowels constipated, I had dull headaches and although I was not sick enough to go to bed I did not have ambition to stir around. I read of Cooper's New Discovery and began using it. I am glad to say that two bottles put me on my feet and relieved every symptom of my trouble. It is one of the best system tonics I have ever heard of." John Burger, 1119 Hopkins St., Cincinnati, O.

A Telltale Nail.

Dr. John Donne, the famous English divine and poet, who lived in the reign of James I., was a veritable Sherlock Holmes in bent of mind.

He was walking in the churchyard while a grave was being dug when the sexton cast up a moldering skull. The doctor idly took it up, and, in handling it, found a headless nail driven into it. This he managed to take out and conceal in his handkerchief. It was evident to him that murder had been done. He questioned the sexton and learned that the skull was probably that of a certain man who was the proprietor of a brandy shop and was a drunkard, being found dead in bed one morning after a night in which he had drunk two quarts of brandy.

"Had he a wife?" asked the doctor.

"Yes."

"What character does she bear?"

"She bore a very good character, only the neighbors gossiped because she married the day after her husband's funeral. She still lives here."

The doctor soon called on the woman. He asked for and received the particulars of the death of her first husband. Suddenly opening his handkerchief, he showed her the telltale nail, asking in a loud voice:

"Madam, do you know this nail?"

The woman was so surprised that she confessed and was tried and executed.

Night Window Shopping.

"I used to think the money spent for light in show windows from closing time till morning was wasted," said a Fifth avenue merchant, "but I have changed my mind about it, and now I keep my windows lighted until 3 a. m. every night but Sunday. I took the trouble to make some investigations as to the value of shop windows before I changed my method. I found that in daytime, when the streets are filled, no one has time for more than a glance at the displays. But at night, and particularly late at night, while there are fewer people out, they are not in a hurry and many of them stop to examine critically the goods shown. I have frequently seen men and women, too, who were window shopping before my place at night inside buying the things the next day. Many people in New York keep themselves posted on fashions and on what is to be had in the stores by 'window shopping.'"—New York Sun.

The Very Worst.

Schoolmistress—Now, tell me the truth, Johnny Jones. You know what will happen if you tell a lie, don't you? Johnny Jones—Yes, ma'am; I'll go to a bad place. Schoolmistress—Yes, and that isn't the worst of it. You'll also be expelled from school.

THE POCKET SAVINGS BANK EPIDEMIC RAGES FIERCELY ....IN GAINESVILLE....

Beneficent epidemics are scarce, but such a one has struck Gainesville, and people of every station and occupation have the fever.

It is most interesting and instructive to study the constantly changing line of applicants for Pocket Banks as it files through The Sun's business office. There is the mother, bringing her daughter with her and securing a bank for the girl, another for herself, and inquiring anxiously whether she may have another for the boy who is at work. She receives it promptly.

Boys come—some are steady, serious-faced chaps who have begun to think on their own account, and who ask questions about the operation of the scheme which show the results of rubbing up against the world.

Then the High School girls and boys, gay and active, while the workman and business man "slip in" during the noon hour to get a bank for the boy or girl at home, after asking one or two leading questions to make sure there is no joke about the 25 cents.

.....THE PLAN IN OUTLINE.....

A HANDSOME NICKEL POCKET SAVINGS BANK and an order on

PHIFER BROS., BANKERS

Good for an additional 25 cents when a deposit of one dollar or more in cash is made, will be given to everyone who avail themselves of this opportunity. Make an investigation and you will never regret it.

Surveying Corps of the University Left for Philbrofen.

Having been assigned to duty at Philbrofen, the new camp site recently selected by act of the Legislature for a permanent camp for the Florida State Troops, Captain N. H. Cox of the University of Florida, with his surveying class, comprising J. W. Shands, W. W. Gibbs, Claude Tompkins and C. F. Canova, left Gainesville Wednesday, and will proceed at once to survey out and lay out the new camp site, which is located on the St. Johns river, about seven miles from Jacksonville.

The party went well equipped, and expect to finish their labors during the early part of the coming week.

GAINESVILLE GIRLS HONORED.

Three Medals Awarded Gainesville at Woman's College Exercises.

Gainesville is proud of the fact that three young ladies of this city have retained the reputation of their town for education at the College for Women, the female State college, which they have been attending.

These young ladies carried the honors in their respective classes. Miss Carrie Dean was awarded the medal for the best essay in the junior class; Miss Eva Dean the medal for the best essay in sophomore class; and Miss Mary Baird the medal for the best essay in the freshman class.

These young ladies have arrived home, and are being showered with congratulations by their friends.

Mr. Adkins to Graduate.

Through the courtesy of J. C. Adkins of New River, well known and popular in this city, we have received an invitation to be present at the commencement exercises of the graduating class of the Valparaiso University Law School, Valparaiso, Indiana, of which Mr. Adkins will be one of the graduates. He is in this city at present, but expects to leave in time to be present at the exercises, which will begin Sunday with the baccalaureate sermon, and extend to June 5. Mr. Adkins' numerous friends throughout the country extend sincere congratulations at his success in passing through this institution, which is one of the best of its kind in the country.

A Delightful Party.

Little Miss Margaret Merchant, at the home of her parents, Mr. and Mrs. Geo. S. Merchant, entertained about fifty of her friends Wednesday evening.

The occasion was passed in a manner appropriate, many juvenile games being indulged in. Delicious refreshments were served during the evening, and it is needless to add were much enjoyed.

At "decent bed-time" the guests departed, with many thanks and best wishes to their clever little hostess.

A Business Change.

A. B. Oliver and W. J. Hunter have consummated an important deal, having purchased the livery of Hunter & Edwards and D. G. Edwards.

The new firm proposes to go into the business on a first-class and extensive scale. They will thoroughly renovate and remodel the Edwards' stable, and will place therein some of the finest stock to be found in this section of the State.

To Our Friends and Patrons.

Since making our announcement that we would close our banking business to take effect on June 15th, 1907, we have sold our building, fixtures and vaults to W. R. Thomas, G. K. Broome, H. F. Dutton, C. W. Chase, J. H. Vidal, S. J. Thomas and J. B. Padgett, well-known business men in this city and county, who will organize a banking company to be conducted in this building. In order that there may be no discontinuance of the banking business in this building, we have decided to continue our business until the organization of the new company and we respectively ask our friends and patrons who have so kindly done business with us to continue their business with the new firm. It will be managed by wise and conservative business men whom we have known in a business way for years, and we bespeak for them a liberal patronage. As advised in our circular letter of the 18th, all checks will be paid without interruption, and certificates of deposits redeemed, with interest, on presentation.
